

The GLOBE Program

*Global Learning and Observations to Benefit the Environment
An International Environmental Science and Education Program*

December 22, 2008

José María Pinillos Fernández
IES Isaac Peral
C/ Plata, S/n
Torrejon De Ardoz, MADRID 28850
Spain

Dear GLOBE Team:

Congratulations! IES Isaac Peral has now reported data from a total of 1102 student measurements. Your school has now moved up on the ladder of schools reporting many measurements from the 500 to the 1000 measurements rung. This is a significant step in your school's progress in GLOBE.

Data reporting is a key contribution to GLOBE. It provides the student with opportunities to answer questions about the environment using their own data, it gives students an appreciation of why data needs to be collected in a certain way; and it provides scientists with data for their research. Thank you for your contributions; I look forward to writing to you in the future as IES Isaac Peral adds to its achievements in this program.

Sincerely,

Dr. Margaret (Peggy) LeMone
Chief Scientist
